

PIR Motion Sensor Porch Light Bulb integrated Passive Infrared Sensor Bulb

Our Product Introduction

for more products please visit us on led-lightsbulb.com

Basic Information

- Place of Origin: Shenzhen, China
- Brand Name: NCJ TECH
- Certification: CE
- Model Number: NSL-AL02
- Minimum Order Quantity: 100 pcs
- Price: Negotiation
- Packaging Details: White box + Outer box (K=A)
- Delivery Time: 1: Sample and small order: Within 7 working days after receiving your payment. 2: Bulk order: 3-4 weeks after receiving your deposit.
- Payment Terms: T/T, Paypal
- Supply Ability: 10000pcs per month

Product Specification

- Light Base: E27 B22
- Wattage: 5W/7W/9W
- Material: Aluminum+PC Housing
- Beam Angle: 120°
- Voltage: AC85-265V
- Luminous Lux: 90lm/w
- Color Temperature: 3000k-6500k
- Highlight: **PIR Motion Sensor Porch Light Bulb, Motion Sensor Porch Light Bulb Integrated, Passive Infrared Sensor Bulb**

Product Description

AC85-265V Voltage Passive Infrared Sensor Porch Lights - Luminous Lux 90ml/w

Product Description:

PIR Sensor Lights, also known as Infrared Detecting Lights, are motion-activated lights that automatically turn on and off when motion is detected. This Passive Infrared Sensor Lights has an integrated infrared detecting technology, which works by sensing the infrared radiation emitted by human body and animals. It is perfect for areas that need extra security such as homes, warehouses, and offices. This PIR Sensor Lights is made of durable aluminum and PC housing and is available in 5W, 7W, and 9W wattages with E27 and B22 light bases. It also has a wide voltage range of AC85-265V and a color temperature range of 3000k-6500k, which allows you to select the perfect light color for your needs.

Technical Parameters:

Attributes	Description
Product name	PIR Sensor Lights
Feature	Motion-Detection Lights, Infrared Detecting Lights, Passive Infrared Sensor Lights
Beam Angle	120°
Voltage	AC85-265V
Wattage	5W/7W/9W
Color Temperature	3000k-6500k
Material	Aluminum+PC Housing
Luminous Lux	90ml/w
Light Base	E27 B22

1. During the day, people and cars pass by, and the lights will not light up.

2. At night people enter the detection area and the lights automatically light up.

3. The person moves in the detection area until the person waves, the light continues to light up

4. After the person leaves the sensing range for 50-60 seconds, it automatically turn off

Support and Services:

We provide technical support and service for our PIR Sensor Lights. Our dedicated customer service team is always available to answer any questions, troubleshoot problems, and provide advice and assistance to ensure our customers are always satisfied.

Our technical support team is available 24 hours a day, 7 days a week to provide helpful advice and solutions to any technical issues you may encounter. We provide a range of services that include installation, repair, and maintenance services. We also offer online technical support, a comprehensive FAQ section, and a live chat service.

We are committed to providing our customers with the best possible service and support. If you have any questions or concerns regarding our PIR Sensor Lights, please do not hesitate to contact us.

Packing and Shipping:

Packaging and Shipping

PIR Sensor Lights will be packaged in a cardboard box lined with foam to protect the product. All components will be securely fastened within the box, and the box will be sealed with bubble wrap for extra protection.

The product will be shipped via ground or air freight, depending on the delivery address. We will use the services of a reputable logistics provider to ensure that the product is delivered in a timely manner.
